One more thing re: the message I left. I assume this is not a last minute request (within 3 days of the original filing deadline). If so, you'll need to show why not requested earlier. If you need more than the default 28/14 day extension, that is possible, but you should explain the circumstances warranting. Also, always best – but not required if you are seeking only the default extension period – to be able to represent that opposing counsel does not oppose the grant. Cheers, T.
